### Data technology use, adoption, lessons learnt

Eric Jansson is the Vice President of Technology for US-based Ed-Fi Alliance, which unites educators and technology providers in an open-source community aimed at enhancing the effective use and adoption of data-based technology tools across 4 000 school districts and 18 states across the USA.

### Learn. Unlearn. Relearn.

Global speaker and author of *Disrupt Yourself Or Be Disrupted*, Nicky Verd is a leading thinker on driving innovation and digital transformation through culture. She is passionate about igniting human potential in the age of artificial intelligence (AI), and boldly issues the challenge: "Learn. Unlearn. Relearn."
